

ABSTRACT SUMMARY
Oregon-Washington ACS Annual Meeting Virtual Format September 21-26, 2020

Session	Theme	Order	Abstract Title	Institution Name	Corresponding Author	Presenter
1	General Surgery	1	Colonic adenomas have a unique microbial signature: a prospective cohort study	Oregon Health & Science University, Oregon State University (D)	Katherine Watson	Katherine Watson
1	General Surgery	2	Management of Appendicitis During Pregnancy	University of Washington	David Drouillard	David Drouillard
1	General Surgery	3	Management of Acute Cholecystitis During Pregnancy	University of Washington, Surgical Outcomes Research Center	Mariam N. Hantouli	Mariam N Hantouli
1	General Surgery	4	Living to Fight Another Day: Diversion Alone as Treatment for Severe Sigmoid Colon Disease	Virginia Mason Medical Center	Ravi Moonka	Celine Soriano
1	General Surgery	5	Targeted Discharge Readiness in Patients Undergoing Open Repair of Giant Paraesophageal Hernias	Virginia Mason Medical Center	Carlson E	Elizabeth Carlson, MD
1	General Surgery	6	Esophageal Atresia Using a Magnetic Compression Anastomosis	University of Washington	Veeshal Patel	Veeshal Patel
1	General Surgery	7	with elevated pre-operative bilirubin: an ACS-NSQIP HPB collaborative analysis	Providence Portland Medical Center	Paul Hansen, MD	Jon Gerry
1	General Surgery	8	for Breast Cancer Impacts Residual Cancer Burden, Recurrence, and Survival	Oregon Health and Science University	Thomas L Sutton	Thomas Sutton
2	Acute Care Surgery and Vascular	1	Office Based Lab vs Hospital: Can Sedation Be Consistently Avoided: Its Impact on Efficiency?	Vascular Surgical Care NW	Kendra Ireigbe	Kendra Ireigbe
2	Acute Care Surgery and Vascular	2	Complicated Recovery After Hypothermia in Trauma Patients	Harborview Medical Center University of Washington	David Miranda	David Miranda
2	Acute Care Surgery and Vascular	3	Should the modern trauma team include a hospitalist?	Northwest Surgical Specialists	Ben Schepergerdes BS	Ben Schepergerdes BS
2	Acute Care Surgery and Vascular	4	Thromboelastography does not detect fibrinolytic inhibition following treatment with tranexamic acid	Oregon Health & Science University	Martin Schreiber, MD	Alexandra Dixon, MD MPH
2	Acute Care Surgery and Vascular	5	Retroperitoneal Bleeding In A Community Based Hospital System	Good Samaritan Regional Medical Center	Erica Tirado	Erica Tirado
2	Acute Care Surgery and Vascular	6	Interpretation and Implications of Tibial Artery (TA) Peak Systolic Velocities (PSVs) and Elevated TA PSVs	Oregon Health & Sciences University	Tana Repella	Tana Repella
2	Acute Care Surgery and Vascular	7	Building a Competency-Based Curriculum in Primary Palliative Care for General Surgery Residents	Oregon Health and Science University	Cook, Mackenzie MD	Shannon Howard MD
2	Acute Care Surgery and Vascular	8	Cholecystectomy After Cholecystostomy?	University of Washington	Alexlois	Alex Lois
2	Acute Care Surgery and Vascular	9	Early Cholecystectomy for Acute Cholecystitis: Does Failure to Follow the Recommendation Cost More?	University of Washington	Erin Fennern	Erin Fennern
3	Oncology	1	Using Regional Data to Impact Change in Rectal Cancer Surgical Care: A Report from the SCOAP Collaborative	Mason Medical Center, Seattle, WA 2 Surgical Specialists of Spokane,	Vlad V. Simianu, MD MPH	Chad Cragle, MD

ABSTRACT SUMMARY
Oregon-Washington ACS Annual Meeting Virtual Format September 21-26, 2020

3	Oncology	2	Laparoscopic versus robotic hepatectomy: a propensity score matched analysis	University of Washington	Kevin P Labadie	Kevin P Labadie
3	Oncology	3	Injected immunofluorescence for ureteral identification during colorectal resections	Mason Medical Center, Seattle, WA 2 Department of Urology, Virginia	Vlad V. Simianu, MD MP	Celine Soriano, MD
3	Oncology	4	Splenectomy For Massive Splenomegaly In Myelofibrosis	Swedish Medical Center	Kaj Johansen MD	Kaj Johansen
3	Oncology	5	Carcinomatosis in Patients with Small Bowel Neuroendocrine Tumors	Oregon Health & Science University	Rodney F Pommier	Sarah Wonn, MD.
3	Oncology	6	Adenocarcinoma: An Analysis of the Impact of Adjuvant Therapy and Pathologic Subtype	Oregon Health and Science University	Marina Affi Koprowski,	Marina Affi Koprowski, MD
3	Oncology	7	Factors Predicting Survival in Thick Melanoma: Do All Thick Melanomas Have the Same Prognosis?	Oregon Health & Science University	Han, Dale, MD	Han, Dale, MD
3	Oncology	8	Differences in the immune microenvironment between early and late onset rectal cancer	Oregon Health & Science University	Ivy Gardner	Ivy Gardner
3	Oncology	9	Circulating Hybrid Cells as Liquid Biomarker of Treatment Responsiveness in Gastrointestinal Cancers	Oregon Health & Science University	Brett Scott Walker	Brett Scott Walker
